## Education

Tulkarm, Palestine

**Computer Systems Engineering, Palestine Technical University – Kadoorie**, Average: 81%

2019 – 2020

**Tawjihi (Industrial Stream), QadriTuqan school**, Average: 95.6%

Nablus, palstine

## Projects

### todo app ↗

It is an application that arranges daily tasks, adding tasks, indicating their completion, or deleting them, and doing the opposite. I used php, html, and css in it.

### blackjack ↗

Blackjack is an incredibly popular, exciting and easy card game to play. The object is to have a hand with a total value higher than the dealer's without going over 21. Kings, Queens, Jacks and Tens are worth a value of 10. An Ace has the value of 1 or 11.

I designed it using java script, css, and html

### passenger\_counter ↗

It is a program built to count passengers, where each new passenger is counted, and upon saving, the counting begins again, while the values are saved, and the counter can be zeroed upon arrival.

I designed it using java script, css, and html

### ChromeExtension ↗

Small programs that personalize your browsing experience.

Where a link can be added, deleted and modified

I designed it using java script, css, and html

### Tic-Tac-Toe ↗

This Dart program defines a TicTacToe class to encapsulate the game logic and uses a simple console interface to interact with the players. The game loop continues until there is a winner or a draw, and players can choose to play again after the game concludes.

## Skills

---

**Object-Oriented Programming**

**Java**

**wep**

HTML, CSS,JS & PHP,MySQL

**c++**

**python**

**Data Structure**

**dart**

**git/github**

**c#**

## Courses

---

Tulkarm, Palestine

**Backend course,**

Course Basic of PHP and make todo task project and learn git ,laravel

## Certificates

---

**PHP(Basic)** (level 1)

## Languages

---

English (Beginner)
